

# STATKRAFT BLP SOLAR SOLUTIONS PRIVATE LIMITED

Statkraft BLP wins “ Best in campus project of the year” CSR Leadership Award from ET Now

ET Now Awards

**ET now**, part of the Times of India group initiated the best CSR concepts and implementation by corporates in which harnessing Solar Energy in the best possible way was one of the concepts studied. Statkraft BLP participated in the competition and the 5 MW in campus project Statkraft BLP implemented for one of the chemical factories SRF Limited was awarded the Best in campus project of the year award.

The project is one of the largest in-campus solar power projects in Tamil Nadu and will reduce electricity costs and CO2 emissions of SRF's production plant for polymer-based technical textiles significantly: It is estimated to generate 7,500 MWh clean energy per year. The project has accounted for more than 1 Lakh hours of employment without any safety violation incidents, which proves that we follow our world-class health and safety standards rigorously, which was one of the salient features for awarding Statkraft BLP.

# STATKRAFT BLP SOLAR SOLUTIONS PRIVATE LIMITED

## USP of the Project

- ▶ A special controller has been designed for this project to prevent the reverse flow of power into the grid.
- ▶ The completed project would now generate 7.59 million units of energy per year and save close to 6000 tonnes in carbon emissions in its first year of operation.
- ▶ The project underwent extensive rain water and storm water drain systems and the same has resulted in excellent water management (flooding, logging and harvesting) system for the client.

## About SRF

Established in 1970, SRF Limited with an annual turnover of ₹5100 crore (US\$ 790 million) is a chemical based multi business entity engaged in the manufacturing of industrial and specialty intermediates. The company's diversified business portfolio covers Technical Textiles, Fluorochemicals, Specialty Chemicals, Packaging Films and Engineering Plastics. Anchored by a strong workforce of more than 6,300 employees from different nationalities working across 12 manufacturing plants in India, two in Thailand, and one in South Africa, the company exports to more than 75 countries. Equipped with State-of-the-Art R&D facilities, SRF has filed 125 patents for R&D and technology so far, of which Eleven have been granted. A winner of the prestigious Deming Prize for two of its businesses namely, Tyre Cord and Chemicals, SRF continues to redefine its work and corporate culture with TQM as its management way.

## About SBSS

Statkraft BLP Solar Solutions Pvt. Ltd. (SBSS), a joint venture between Statkraft and Bharat Light and Power. Statkraft is Europe's largest generator of renewable energy and is the leading power company in Norway. The group owns 19000 Mwp worldwide. BLP is one of the key clean energy generation companies in India. It builds, own and operate renewable energy power plants to generate clean energy.

SBSS has been set up for developing solar projects in India with focus towards serving industrial and commercial customers. SBSS also provides a variety of financing structures, whereby consumers can convert their solar CAPEX into an attractive per unit cost of solar energy, enabling consumers to reduce their carbon footprint and lower energy costs.
